Subject: UNE-P program

I find it very offensive that SBC is advertising against AT&T and MCI regarding long distance competition, but wants to do away with the UNE-P for local competition. They do seem to want it both ways. They would like to compete in long distance but suppress competition for local service. Same SBC/Ameritech rhetoric !! Whatever is best for them.

Sincerely,

Hans Herrmann

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. **As** a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Dale A Anklam

I'm tired of having Big Money lobbyists sneaking back in to modify legislation that was created to protect consumers from monopolies. Legislators vote for the consumer protection when the original bill is big news, but when the lobbyists, money in hand, come in the back door for an amendment that guts the law a year or two later some legislators give them their way. I'm more and more conscious of such legislators. I hope you are not such a legislator.

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies arent required to allow competitors access to the market. Im also concerned about the Commissions move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Dale J. Milnes & family

Subject: UNE Platform

2/5/03

Dear Chairman Powell

I ask your support for the continued availability of the UNE-Platform

My company, Communication Impact Inc., offers local telephone services in California. My company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE- Platform- to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this very important matter

From: Debra L. Hoback
To: Commissioner Adelstein
Date: Tue, Feb 4, 2003 5:22 PM
Subject: Comments to the Commissioner

Debra L. Hoback (dlhob@yahoo.com) writes:

Dear Commissioner Adelstein,

Please do not vote to eliminate competition in the telecom sector. Even the big boys don't bother playing in my playground. If it weren't for competition, I might not have a dial up provider. I may never see broadband, but I have 2 choices of ISPs for dial up, both of them, I am sure you have never heard of. Many of us have few choices, some none. Please, do not vote to take away the few options we DO have.

Thank you for your consideration in this matter.

Respectfully,

Debra L. Hoback
